

Segment Execution Policy

Objective

Aker Solutions shall efficiently and effectively deliver with right quality to improve customer value

Commitments

- We shall always focus on HSSE and process safety and strive to execute our projects with zero harm to people, environment and assets
- We shall understand customer needs and requirements and continuously improve to increase customer value
- We shall execute all projects and services in accordance with Aker Solutions' Management System and other requirements, ensuring predictable delivery on quality, time, and cost
- We shall understand our risks, seek to mitigate threats and realize opportunities
- We shall actively utilize our workshare capabilities and key competences through standardized working methods for optimum delivery
- We shall provide the right level of resources to ensure that this policy is implemented appropriately

Behaviours

- We collaborate between segments and functions, and utilize strategic partnerships to maximize customer value
- We execute all projects and services in accordance with our Management System
- We openly communicate and visualize performance, seeking the most efficient solutions and learn from our experiences
- We work actively to simplify, standardize and improve our deliverables in collaboration with stakeholders, partners and customers.
