CSR Projects for Financial Year 2023-2024

A. Sustainable solar-based water infrastructure along with solar electrification, water and sanitation facilities in schools

Support to develop solar-based household water schemes for two villages as well as solar electrification, water and sanitation facilities in schools and pre-schools of nine different villages in the Igatpuri area of Nashik District, Maharashtra. Swades Foundation is acting as the implementing agency for the initiative.

B. Rural water provision and health and enterprise training for women

Support to develop a check dam at Shiravali village in Raigad, Maharashtra and promotion of health, nutrition and enterprise training for women in the area. The Watershed Organisation Trust (WOTR) is acting as the implementing agency for the initiative.

C. Livelihood training program for persons with disabilities and underprivileged youth

Support for livelihood training, including specialized skillsets in the areas of information technology enabled services (ITES) and banking, financial services and insurance (BFSI), for persons with disabilities and marginalized youth in the Khar-Bandra area of Mumbai, Maharashtra. New Resolution India (also known as Bright Future) is acting as the implementing agency for the initiative.

CSR Projects for Financial Year 2024-2025

A. Focused holistic rural development through solar energy-based water infrastructure and solar electrification

Support for development of two solar energy-based household water schemes along with solar electrification in three schools and installation of 100 solar streetlights in two villages. Swades Foundation is acting as the implementing agency for the initiative.

B. Provision of mobility aids to persons with disabilities from marginalized communities

Support for mobility aids to persons with disabilities from marginalized communities in underdeveloped localities of Mumbai, Maharashtra. The Ratna Nidhi Charitable Trust (RNCT) is acting as the implementing agency for the initiative.
